PROFESSIONAL SUMMARY

DevOps / Cloud Engineer with 5 years of experience in CI/CD automation, AWS cloud infrastructure, Kubernetes (Amazon EKS) and Infrastructure as Code. AWS Certified Solutions Architect – Associate and HashiCorp Certified Terraform Associate. Reduced deployment time by 40% and sustained 99.9% uptime across Development, UAT, Pre-Production and Production environments. Currently in Dubai on a visit visa and available to join immediately for DevOps, Cloud or Platform Engineer roles in the UAE.

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate | 2026 | Credly
- HashiCorp Certified: Terraform Associate (004) | 2026 | Credly
- DevOps Masterclass – Scaler | Jan 2025 | Scaler

TECHNICAL SKILLS

Cloud: AWS (EC2, VPC, EBS, RDS, IAM, CloudWatch, CloudTrail, Auto Scaling, Security Groups), Azure
Containers & Orchestration: Kubernetes, Amazon EKS, Helm, Docker, Argo CD (GitOps)
IaC & Automation: Terraform, AWS CloudFormation, Ansible, Bash / Shell Scripting
CI/CD & Build: Jenkins, Git, GitHub, Maven, SonarQube, Nexus, CI/CD Pipelines, Webhooks
Monitoring & Security: Prometheus, Grafana, CloudWatch, CloudTrail, IAM, Incident Management, 24×7 Production Support
Systems & Servers: Linux (Ubuntu, CentOS), Windows, Apache Tomcat, Nginx, MySQL

PROFESSIONAL EXPERIENCE

DevOps Engineer | Esdy Information Systems Pvt Ltd | Hyderabad, India **Jan 2023 – Sep 2026**

- Reduced deployment time by 40% by building CI/CD pipelines with Git, GitHub, Maven, Jenkins, Ansible and AWS.
- Maintained 99.9% uptime by managing AWS EC2, EBS volumes, snapshots, Security Groups and Auto Scaling, with monitoring through Prometheus, Grafana and CloudWatch.
- Provisioned AWS VPCs, subnets and project infrastructure; maintained Infrastructure as Code with reusable Terraform modules and AWS CloudFormation.
- Deployed and managed Docker containerized applications on Kubernetes (Amazon EKS) for high availability, scalability and reliability, using Helm and Argo CD for deployments, updates and patching.
- Administered and upgraded Jenkins, configured webhook build triggers and automated deployments with Ansible.
- Supported 4 environments (Development, UAT, Pre-Production, Production) 24×7, maintaining 99.9% availability.
- Coordinated releases with client teams, Developers, DBAs, QA, IT Operations and Project Managers, defining release scope and confirming successful deployments.
- Set up build environments for Java applications on Windows and Linux.

Cloud Associate | Esdy Information Systems Pvt Ltd | Hyderabad, India **Dec 2021 – Dec 2022**

- Implemented Jenkins CI with master-agent architecture on Linux to support parallel builds.
- Automated artifact builds with Maven and deployed WAR and JAR applications to managed servers using Jenkins.
- Integrated GitHub with Jenkins to automate code integration across 3 environments (QA, UAT, Pre-Production).
- Created AWS project resources and provided 24×7 production and non-production support.

IT Support Intern | Techie Horizon | Hyderabad, India **Aug 2021 – Dec 2021**

- Managed IT support tickets in Jira, monitored operational metrics, shared updates via Slack and assisted with troubleshooting.

SELECTED PROJECTS

- Jenkins CI/CD Pipeline Automation (Jenkins, Maven, SonarQube, Nexus, Docker, Tomcat, Slack): automated build, code quality analysis, artifact publishing, notifications and deployment.
- AWS Infrastructure Automation (AWS, Terraform, Ansible, Linux, Nginx, Netdata): provisioned EC2 infrastructure and automated server configuration, reverse proxy and monitoring.
- Jenkins Upgrade & Patching Automation (AWS, Terraform, Ansible, Jenkins, OpenJDK): automated Jenkins installation, upgrades and service management with Ansible playbooks.
